PROMOTE

Promoting and validating key competences in Mobility and Traineeships in Europe
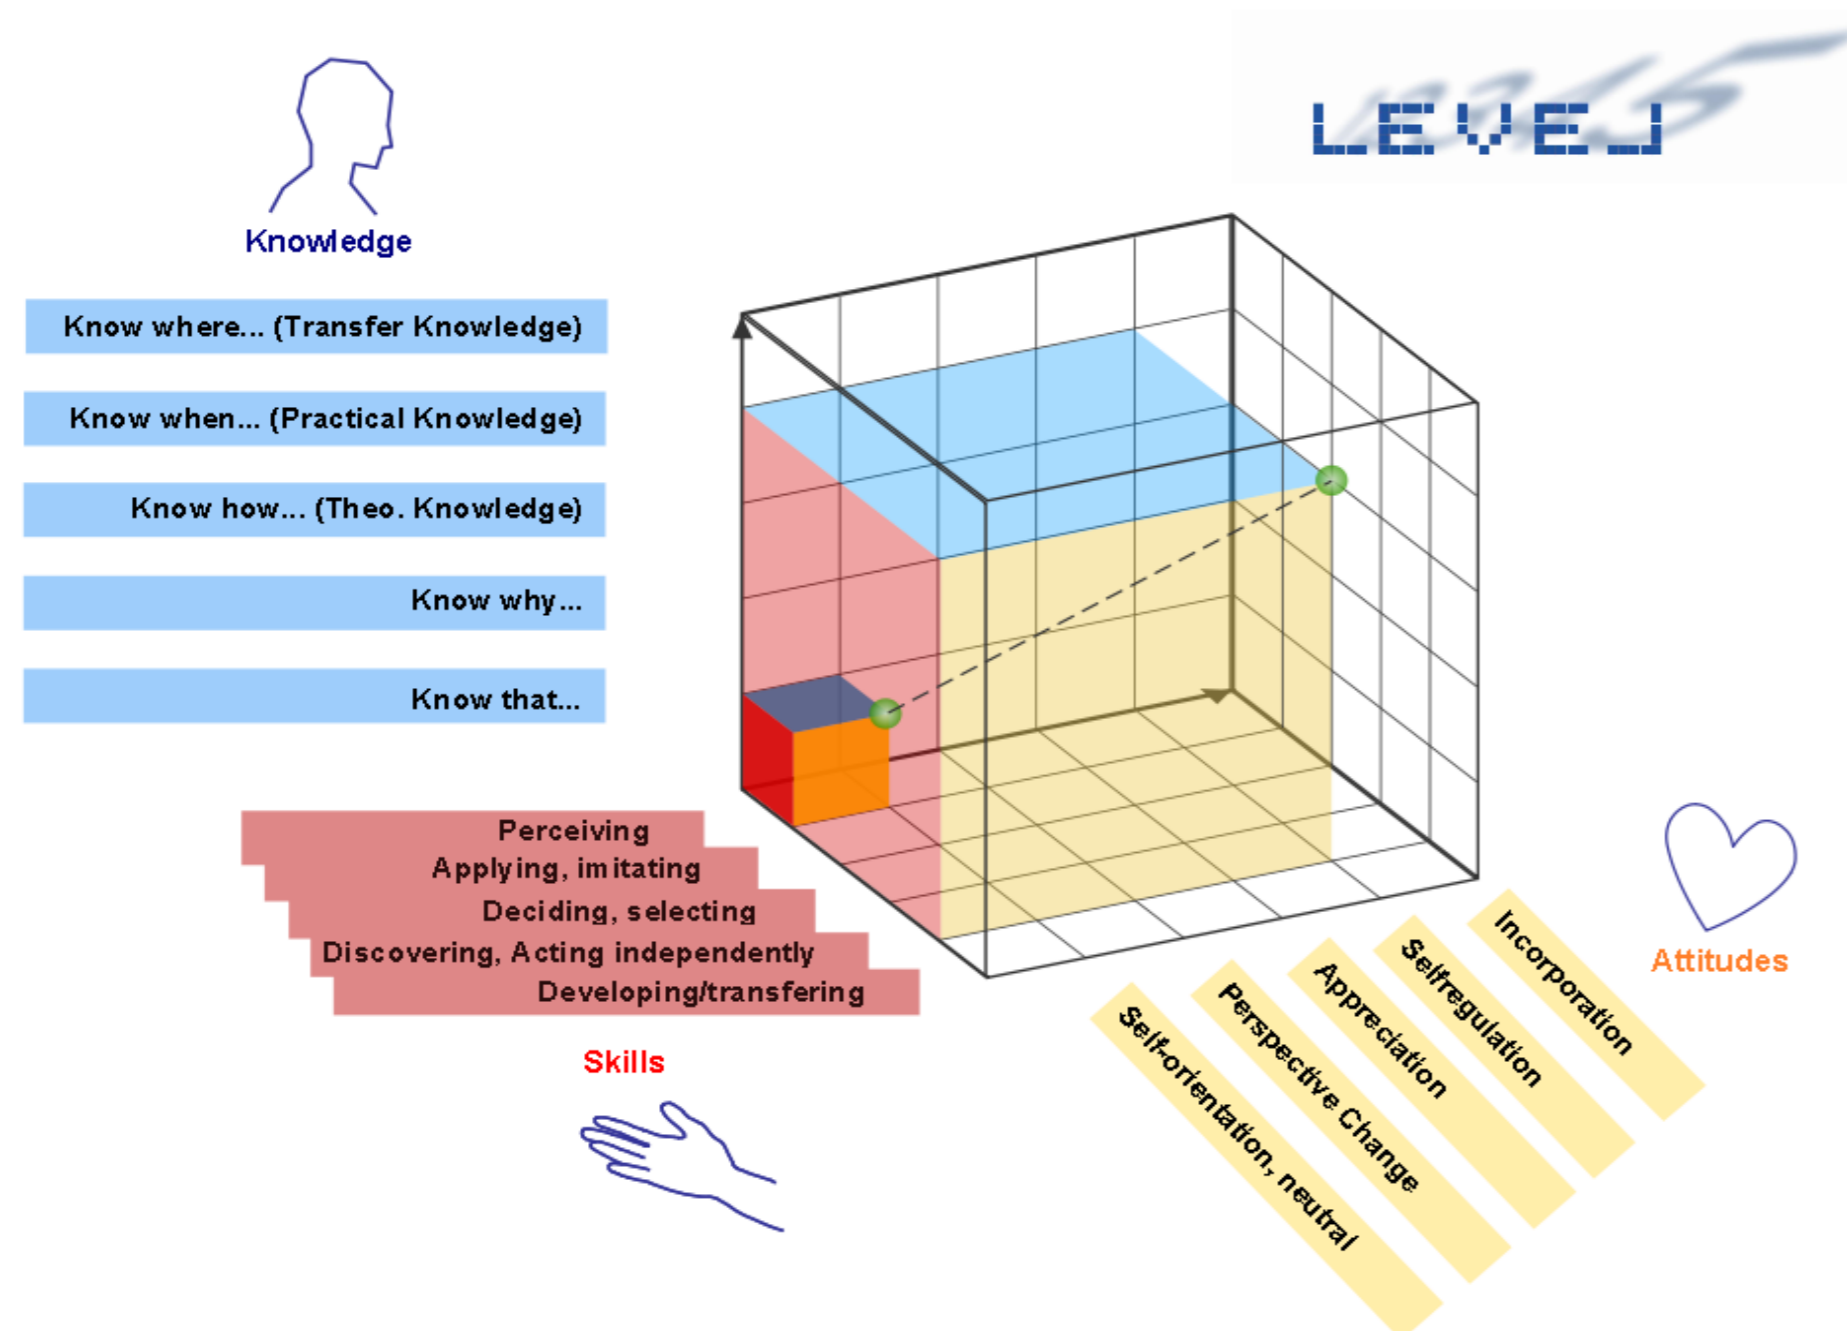

554471-EEP-1-2014-1-LT-EPPKA2-KA

WHAT IS PROMOTE

PROMOTE is a project funded by the European Commission with the objective of setting up holistic competence oriented open learning environments to promote and validate key competences at the interface of academic education and learning in practice business contexts.

The LEVEL5 system

PROMOTE makes use of the LEVEL5 system which has been specifically developed by the network REVEAL to assess personal, social and organisational competence developments in rather non-formal and informal learning settings. LEVEL5 is based on a 3-dimensional approach to validate cognitive, activity related and affective learning outcomes.

PROMOTE ACTIVITIES between December 2015 and November 2016

- Research existing approaches for acquiring and validating key competences in HE and in enterprises;
- Develop a competence oriented learning and validation approach;
- Enrich existing validation and certification systems and linking with existing ECTS-system;
- Customise the web-based LEVEL5 system for competences acquired in European mobility, traineeships and CPD programmes;
- Pilot and evaluate the competence oriented learning and validation system in internships or traineeships;
